2009: An Exciting Year for OptionsCity

Chicago, January 5, 2010 – 2009 was an exciting year for OptionsCity™ as the company's client base tripled. By the end of 2009 OptionsCity users expanded to trade options on Gold, Silver, Crude Oil, Eurodollars, Treasuries, Equity indexes, Corn, Beans, Bean Meal, Bean Oil, Wheat, Milk, Cattle, Hogs, FX, ETF's, along with individual Equity names. While the client base of OptionsCity is now trading across virtually all product classes, it also expanded geographically to include traders from all regions of United States.

"We have made the commitment that we will listen to all of our clients' needs, and I believe this has been a major contributing factor to the success we've had last year," said Hazem Dawani, President and CEO.

In 2009, OptionsCity released Metro 2.0, a version with countless enhancements and features, a lot of them originating from customer suggestions and feedback. OptionsCity also added direct market access to the ICE, NYSE Amex, NYSE Arca, Goldman Sachs REDI platform, NYMEX, and CBSX to complement their already existing connectivity to the CME, CBOE, and CFE. OptionsCity plans to continue adding direct market connectivity for both domestic and foreign exchanges in the very near future.

With the full commitment of OptionsCity to excellent support and product advancement, the staff has also grown throughout 2009. The company that set out to offer a complete end-to-end solution for options traders and market makers has experienced remarkable growth after just over three years of existence. "OptionsCity has no intention of resting on its laurels, and has set its sights on more ambitious goals and plans for 2010," said Victor Glava, CTO and VP Development.
