**OptionsCity™: an Approved ICE Vendor**

***OptionsCity™ is now a certified vendor for electronic trading on the Intercontinental Exchange (ICE)***

**Chicago, August 4, 2009** – OptionsCity™ today announced that the certification process for the Intercontinental Exchange (ICE) has been completed. OptionsCity is now an approved vendor for electronic trading on the ICE. Sugar options and futures will be the first product that OptionsCity will roll out to.

"ICE is a leader in innovation which makes us pleased to be on board with them. Our relationship with ICE will allow us to increase our offering to our traders as well as provide opportunities for growth and potential new clients." said Hazem Dawani, President and CEO.

Connecting to ICE will allow more options and greater flexibility for users of OptionsCity Metro Software. OptionsCity Metro is a fully configurable electronic trading platform that creates a distinctive edge by enabling options traders to have full control over trading, safety and risk management. This state-of-the-art solution enables traders to leverage their trading knowledge and expertise into increased profits. OptionsCity helps to automate the market making and trading strategies while the innovative graphical representation and framework allows traders to expand their trading portfolio with minimum additional people.

OptionsCity is a certified ISV (Independent Software Vendor) on the CME, CBOT, CBOE, CFE, CBSX, NYMEX, and now ICE. To find out more about OptionsCity™ Metro contact us on (312) 635-1750 or e-mail us at [info@optionscity.com](mailto:info@optionscity.com)

**About OptionsCity™ Software, Inc.**

OptionsCity™ was founded in October 2006 with its headquarters in the financial district of Chicago. The company's main product is a real-time electronic trading platform for options traders who make markets, maintain liquidity and trade on the world's leading derivative markets. The OptionsCity™ solution solves current issues and adds new distinctive features, including creative ways of organizing and displaying data, advanced opportunity identification, increased safety and risk management, strategy automation, and revolutionized communication between traders.

**About Intercontinental Exchange (ICE)**

ICE® is a diverse, global exchange operator listing hundreds of physical and derivative products. ICE's products include contracts based on foreign exchange, equity indexes, crude oil and refined oil products, natural gas and electric power, as well as a suite of soft commodities contracts that include cocoa, coffee, cotton, frozen concentrated orange juice and sugar.
