OptionsCity™ Introduces Futures Depth Widget

Chicago, July 22, 2009 – OptionsCity™ is proud to introduce a state-of-the-art Futures BookDepth Widget. This feature adds a great deal to OptionsCity™ Metro, while enhancing the product offering to the various types of traders.

“With the completion of our latest widget, we enable traders to view the futures bookdepth market and make informed and fast trading decisions. We believe this will help our clients maintain profitability and get the best hedge quite effectively.” said Victor Glava, CTO and VP Development.

In addition to providing Auto-Hedge functionality, the addition of this Widget allows OptionsCity clients to make fast trades and get the best hedge possible, whether they choose to automate it or manually place the orders. As the electronic market continues to evolve, OptionsCity™ Metro software does so also. With the addition of the Futures Depth Widget, OptionsCity offers a robust end-to-end solution for traders in all products.

OptionsCity Metro is a fully configurable electronic trading platform that creates a distinctive edge by enabling options traders to have full control over trading, safety and risk management. This state-of-the-art solution enables traders to leverage their trading knowledge and expertise into increased profits. OptionsCity helps to automate the market making and trading strategies while the innovative graphical representation and framework allows traders to expand their trading portfolio with minimum additional people.

OptionsCity is a certified ISV (Independent Software Vendor) on the CME, CBOT, CBOE, CFE, CBSX and NYMEX. To find out more about OptionsCity™ Metro contact us on (312) 635-1750 or e-mail us at info@Optionscity.com

About OptionsCity™ Software, Inc.

OptionsCity™ was founded in October 2006 with its headquarters in the financial district of Chicago. The company’s main product is a real-time electronic trading platform for options traders who make markets, maintain liquidity and trade on the worlds leading derivative markets. The OptionsCity™ solution solves current issues and adds new distinctive features, including creative ways of organizing and displaying data, advanced opportunity identification, increased safety and risk management, strategy automation, and revolutionized communication between traders.
