OptionsCity Introduces a New Version of Metro

Chicago, March 17, 2010 – OptionsCity™ is pleased to announce the release of OptionsCity Metro 2.1. This latest release adds to its 2.0 milestone release and includes performance improvements to Metro's server based low latency Quoting Engine, as well as major enhancements to the user interface to improve GUI responsiveness and intuitiveness. In this release, OptionsCity also exposed additional API (Application Programming Interface) functionality for clients integrating their proprietary systems and algorithms.

"This is another step in creating the most intuitive, powerful, and low latency electronic trading platform available for Options traders", said Victor Glava, CTO and VP Development. "OptionsCity Metro user interface is more streamlined and our server based low latency engine is more powerful".

OptionsCity Metro 2.1 new functionality includes: enhanced Quoting management and reporting; streamlined RFQ responding work flow, enhanced electronic eye management; new functionality exposed through the API; as well as additional models and skewing capabilities.

OptionsCity Metro is a fully configurable electronic trading platform that creates a distinctive edge by enabling Options traders to have full control over trading, safety and risk management. This powerful solution automates market making and trading strategies while the innovative graphical representation allows traders to expand their trading portfolio with minimum effort.

OptionsCity is a certified ISV (Independent Software Vendor) on the CME, CBOT, NYMEX, COMEX, CBOE, CFE, CBSX, ICE, and NYSE AMEX. To find out more about OptionsCity™ Metro contact us on (312) 635-1750 or e-mail us at info@optionscity.com.

About OptionsCity™ Software, Inc.

OptionsCity™ was founded in October 2006 with its headquarters in the financial district of Chicago. The company's main product is a real-time electronic trading platform for options traders who make markets, maintain liquidity and trade on the worlds leading derivative markets. The OptionsCity™ solution solves current issues and adds new distinctive features, including creative ways of organizing and displaying data, advanced opportunity identification, increased safety and risk management, strategy automation, and revolutionized communication between traders.
