OptionsCity™ Powers Seven New Trading Groups

Chicago, September 16, 2009 - OptionsCity™ is pleased to announce that in the last month it added seven new trading groups to their growing list of clients. OptionsCity will be their main supplier for electronic market making and floor-based trading technology. These groups will use OptionsCity Metro to trade futures and options for a number of product groups, including: Gold and Silver, Crude Oil, Natural Gas, SPY, and Eurodollars.

"We are pleased with the success that OptionsCity has attained and how quickly it is growing. Maintaining a good relationship with our clients is important to us as it allows us to increase our offering to other potential clients and prove that our software serves this market quite well. We look forward to serving the needs of existing and future clients," said Steve Kosanovich, VP Sales of OptionsCity.

OptionsCity Metro is a fully configurable electronic trading platform that creates a distinctive edge by enabling options traders to have full control over trading, safety and risk management. This state-of-the-art solution enables traders to leverage their trading knowledge and expertise into increased profits. OptionsCity helps to automate the market making and trading strategies while the innovative graphical representation and framework allows traders to expand their trading portfolio with minimum additional people.

OptionsCity is a certified ISV (Independent Software Vendor) on the CME, CBOT, CBOE, CFE, CBSX, NYMEX and ICE. To find out more about OptionsCity™ Metro contact us on (312) 635-1750 or e-mail us at info@Optionscity.com

About OptionsCity™ Software, Inc.

OptionsCity™ was founded in October 2006 with its headquarters in the financial district of Chicago. The company's main product is a real-time electronic trading platform for options traders who make markets, maintain liquidity and trade on the worlds leading derivative markets. The OptionsCity™ solution solves current issues and adds new distinctive features, including creative ways of organizing and displaying data, advanced opportunity identification, increased safety and risk management, strategy automation, and revolutionized communication between traders.
