OptionsCity™ Signs Six New Trading Groups

Chicago, August 11, 2008 - OptionsCity™ is delighted to be working with six new groups of traders as their supplier for electronic and floor-based options trading and market making on the Chicago Mercantile Exchange (CME), Chicago Board of Trade (CBOT) and the Chicago Board of Options (CBOE).

These groups will use OptionsCity Metro for a variety of products including Eurodollar futures and options, E-minis, OEX, S&P's, grains and the Financials.

"We are pleased with the growth of the company. Building a good reputation and word of mouth has certainly helped us grow and gain additional clients. We look forward to serving the needs of our existing and future traders," said Hazem Dawani, CEO of OptionsCity.

In its latest release, OptionsCity Metro included a new Auto Hedge feature as well as new ways to group and view risk. The Tied Volatility Tool enables traders to set ratios between products while adjusting volatility. Market data is now available on handheld tablets used by floor traders. "All of these enhancements will allow for greater flexibility and ease of use in this fast paced electronic trading environment," said Steve Kosanovich, VP Sales of OptionsCity.

OptionsCity Metro is a fully configurable electronic trading platform that creates a distinctive edge by enabling options traders to have full control over trading, safety and risk management. OptionsCity is a certified ISV (Independent Software Vendor) on the CBOE, CBOT, CME and NYMEX.
